Death of Mrs. Foster.

On Monday, the body of Mrs. Maria (Stocker) Foster was brought to the home of Frank Stocker, and after a brief service conducted by Rev. George H. Cummings, was buried in the Lowell family lot in the village cemetery. Mrs. Foster died at the home of her daughter, Mrs. Lorenzo G. Burnham, at Burlington, Friday, August 30, after an illness of several months, at the advanced age of 96 years. She had lived with Mrs. Burnham for 34 years, since the death of Mr. Foster, and received the most devoted care. Maria Eliza was the seventh child of John and Sarah Stocker, and was born in Danville, April 15, 1811. John Stocker had four children by a second wife, and Mrs. Annette Farr of Danville is the youngest of these, and now the sole survivor of the 11 children. Maria Stocker married for her first husband Eben Lowell of Danville, by whom she had two children, Sarah, the elder daughter, married Nelson Morse of Cabot, and died leaving seven boys and two girls, of whom three were present on Monday. The younger daughter, Annette E., married Lorenzo G. Burnham in 1871. After the death of Eben Lowell, his widow married Ephraim Foster, a widower with five children, none of whom are now living, but one of the grandchildren, Miss Farrington, and her father, were also present on Monday. Mrs. Foster early united with the Congregational church in Danville, and later with the First Congregational church in Burlington. The funeral, conducted by her former pastor, Rev. Glenn Atkins, D. D., (now of Detroit, Mich.) was held Sunday at 4:30 p. m., at her daughter's residence in Burlington. The cast included some well-known local players, who have made favorable reputations as amateurs in the past. Will Harris was perhaps the star of the masculine players, being, as usual, inimitable in his part. Others who sustained their characters well were Ray Leonard, Harley Johnson, and Will Currier, while the leading women were Miss Christabel Brown, Mrs. Harris Allen, and Mrs. Will Parker. An Interesting Savings Bank Record.

Any system or method of doing business which varies much from that followed by others engaged in the same line, is always watched with eager interest. The scheme of banking used so successfully by the Hyde Park Savings Bank is so different from that of the other banks in the state, that it is found especially interesting. The Brattleboro Reformer says:

It is interesting to note the progress of this institution because of the fact that all its funds are invested in Vermont and it has never lost a dollar by a poor note.

This bank pays 4 per cent, compounded semi-annually on deposits of \$100 or more.

The Making of Hanovers

in the factory of SMITH & SON at White River Junction.

The making of HANOVER CRACKERS is always interesting. None the less so on a warm morning. All the windows are open and the long sweep of powerful fans above stirs the air tremendously. The baker's boy is brushing out the oven. The girls are waiting near for the cutting of Crackers to begin. Great baskets are piled high about, and hundreds of empty cartons in orderly array. We have come at the right moment.

Early in the morning the fire-pots under the great re-oven were newly stoked. Then came the bakers, who removed quantities of dough from the big mixer, where it had "proved" over night. Soda and salt were mixed into batch after batch with mechanical precision, and all was set aside and covered, for a little, until the chief baker should determine that it had "proved" again.
